

## The Superintendent's Stethoscope

Without a stethoscope how can a doctor really keep an eye on his patients? Now, golf course superintendents have the right instruments to examine their patients.

We all know that a surgically sharp cut from mowers ground by Express Dual and Anglemaster is key to the health of the grass plant. Now you can take a closer look – inspect the quality of cut for yourself and see what your mowers are doing do the turf.

- Lightweight and easy to use
- Get a detailed look at turf health
- Identify diseases, nutrient issues and other physiological conditions
- Observe what is really going with turf at 25X actual size
- Comes with durable carrying case

## See The Results Where It Really Counts...
